Entrepreneurship is defined as the creation of value by people and organizations working together through applying creativity, drive, and willingness to take what might commonly be viewed as risks.

**Entrepreneurship at EKU is a risk worth taking!**

Your success begins with an idea that comes to life through a plan. To execute your plan successfully, you need the right knowledge and skills. The entrepreneurship major is for those who have a desire to obtain basic business knowledge and skills related to starting their own business or managing an existing business – like a family owned business for example.

This major is primarily for students who either intend to start and/or manage their own business or plan to work as innovators in the corporate world.

*Entrepreneurs are simply those who understand that there is little difference between obstacle and opportunity and are able to turn both to their advantage.*

- Niccolo Maccavelli
