Computer Information Systems
B.B.A. Degree
General CIS Concentration

What is Computer Information Systems (CIS)?
A Bachelor or Business Administration degree in Computer Information Systems (CIS) focuses on the applications and implications of computing in the business domain. Graduates with this degree have studied electronic business development techniques and tools, project management, business application programming, forensic computing, and database management along with accounting, finance, marketing, and business strategies.

Where do our graduates work?

What kinds of jobs are out there for a CIS graduate?
During school: Co-op and internship pay ranges from $10 to $17 per hour. EKU has the largest co-op program in the State with more job opportunities than students to fill them.
Long term: IT Project Manager, Database Administrator, Systems Development Manager, Chief Technology Officer, Chief Information Officer, President, Chief Executive Officer.

What kind of salary range can CIS graduates expect?
CIS is one of the top ten most popular majors in college. Systems analysts and computer support specialists have been projected as number two and three on job growth in the U.S. The starting salary for CIS graduates in 2008 averaged $52,500 (NACE Salary Survey, Jan. 2009).

What student organization is available?
The Association of Information Technology Professional (AITP) offers students an opportunity to learn from industry leaders, attend national trade shows, and perform community service projects.
